

IO3 DRAFT DESIGN OF DIGITAL PORTFOLIO FRAME

O3 Digital portfolio

SAVE model of **learning personalization** “Personalization trainer” competences Digital portfolio

Trainers guidelines and handbook
Training trainers learning materials

The design of the digital portfolio frame and tool integrated with the learning personalization approach is provided through:

- analysis of the digital portfolio frames and learning personalization approaches in use in the participating organizations;
- draft design of the digital portfolio frame and tool, valorising the ITUBE model and adapting it to the SAVE target on the basis of O1 and O2 results;
- restricted pre-piloting activities: experience of the draft frame with the target and stakeholders meetings to collect feedbacks;

ANALYSIS OF DIGITAL PORTFOLIO FRAMES

I TUBE PORTFOLIO: FORMAT AND PROCEDURE OF REPRESENTATIVE BIOGRAPHY - <http://mahara.navreme.cz>

BEST PRACTICES resulting from O1 reports

DRAFT DESIGN HYPOTHESIS

A WORKING SPACE FOR TRAINERS/OPERATORS & NEETS

DRAFT DESIGN HYPOTHESIS - TRAINERS

Examples, checklists, models on:

- how to use the **Diagnostic Self-awareness tool**
- how to use the technique of interview for the self presentation,
- the report of a representative biography,
- the technique of a guided self evaluation interview in order to collect information about the younger and guide him/her to acquire self awareness (who is the learner, his/hers previous knowledge, experience, learning style; what the learner is looking for, what kind of courses or learning experiences, where, how much long, what level, which strategy are more fit for the learner; what are the available learning opportunities and resources).

DRAFT DESIGN HYPOTHESIS - NEETS

Self-awareness & Self-assessment tools leading to the design and building of a portfolio and of a personalized pathway

Portfolio (as for example an advanced user profile, avatar, clipping board, etc., with supporting functions, templates, to customize the page adding contents, publishing contents, revise and update them, etc.)

- Reminders: calendars, alert, ...
- Trip and Tricks
- Token e cockades
- Personalized pathway
- social media tools
- multimedia resources

DRAFT DESIGN OF SAVE FRAME

A possible logical frame to apply the proposed supports, contextualized in the given SAVE scenario and in the daily work of involved Organizations, can be:

1) Self awareness/diagnostic tool + representative biography ---> 2) choice of the apprenticeship option --> 3) use of reminders, calendars, alert, ... - Trip and Tricks - Token e cockades - social media tools - multimedia resources ---> 4) Self evaluation --> 5) Portfolio (design and implementation including all the evidences, pictures, awards, cockades, etc. form the apprenticeship experience) ---> 5) Personalized pathway (co-designed by the younger and the trainer/orienteer/operator)

Thanks for your attention!
